1

LOOK

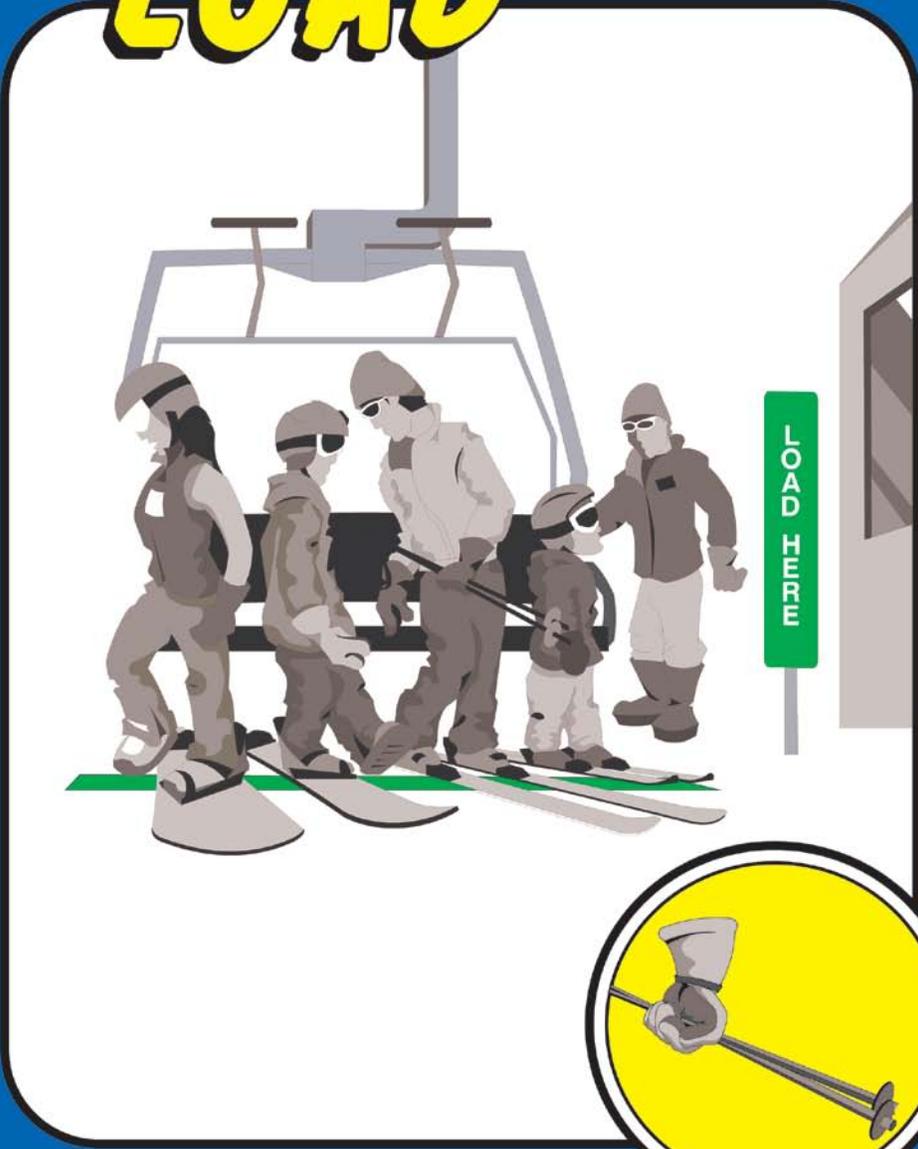

Secure
loose hair & clothes, remove
backpacks & headsets

Observe your surroundings and watch for any potential trouble-spots. Move in an orderly fashion through the lift line making sure to obey instructions from the lift attendants and all information signs. Do not cross the **Wait Here** line until it is your turn to load. Secure loose hair and clothes, remove backpacks and headsets.

2

LOAD

Ask For Help
from the Lift Attendant
if unsure

The illustration shows a ski lift cabin with four skiers. A green sign on the right reads 'LOAD HERE'. A circular inset in the bottom right shows a close-up of a ski pole with a wrist strap.

Once the skiers/riders in front of you are safely on the lift move into the loading position at the **Load Here** sign. Ask for help from the lift attendant if you are unsure about the proper loading procedure. Remove pole straps from wrists and hold ski poles with pole tips facing forward. Small children should not ride the lift alone until they can properly do so.

3

LOWER

Remain Seated
do not bounce or swing
chair

Always lower the restraining device as soon as possible after sitting down. Make sure that all persons on the lift are aware that the safety bar is being lowered so that they may adjust the position of their ski poles if necessary. Remember to keep ski tips up and **never** swing or bounce the chairs. Single riders should sit in the middle of the chair on triple and quad chairs.

4

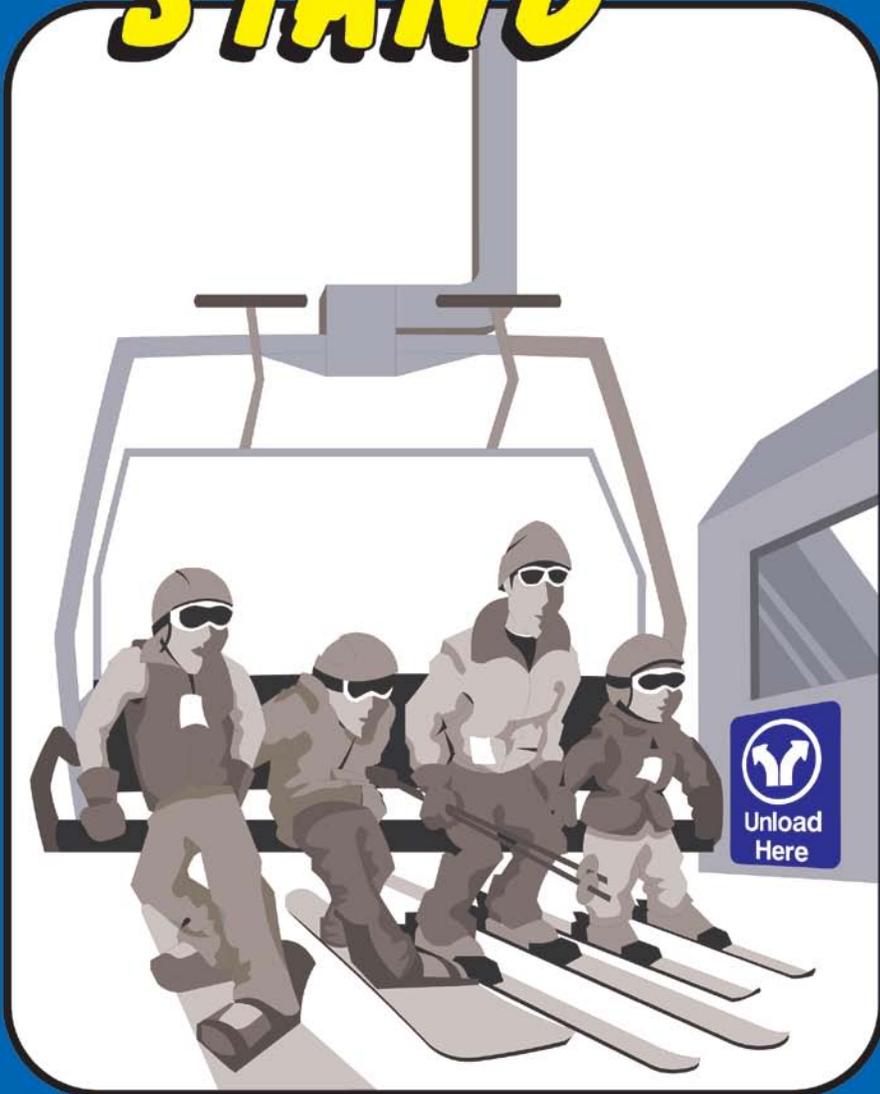

Single Riders
Sit in the middle of the chair

Near the top of the lift there will be information signs indicating that it is time to prepare to unload. At the "Raise the Restraining Device" sign the safety bar must be lifted. **Remain seated until the lift has reached the unloading area.** Make sure that no clothing or equipment is caught on the lift. Take note of the arrows on the Unload Here directional signs. These arrows indicate which way to go once unloading has taken place.

5

STAND

Raise Tips
on skis and boards when
entering stations

Upon entering the unloading area make sure that ski and board tips are up. At the **Unload Here** sign stand up and move forward out of the path of the chair. Maintaining balance and control of equipment at this point is very important. Be careful not to collide with the person next to you. Remember that small children may require assistance with unloading.

6

LEAVE

Please
Clear
Unload
Area

Dropped Articles
ask Lift Attendant
for help

It is important that the unloading area is kept clear to avoid collisions with others who are getting off of the next chair. Immediately after unloading, move out of the Unload Area. Go in the direction that the arrows on the Unload Here signs indicate. Adjustments to snowboards and skis may be made only after moving out of the Unload Area. Ask the Lift Attendant for help with any articles that have been dropped from the lift.
