

COVID-19 FAQ

Updated: May 17, 2021

Do I need to wear a mask?

Yes, masks or face coverings are required while visiting the Aerial Park. This applies to all participants and staff. Exemptions are not permitted.

How are you ensuring physical distancing?

Physical distancing is implemented at all stages of the adventure. Each spot in our Ground School orientation is spaced out 2m apart. Each element on the tower is limited to one person at a time and the outer platforms are limited to members of the same cohort.

Additionally, the overall capacity of participants is reduced to allow more space between participants as they navigate the tower.

Do I need to wear gloves?

We do not require the use of gloves, but are requiring the use of hand sanitizer at the start of your ground school and again before beginning your climb. We also have hand-sanitizing stations on each level of the tower and require sanitizing your hands between each level.

Gloves are permitted if you are more comfortable, but will need to be sanitized prior to beginning your adventure.

How do I book my tickets?

All tickets must be booked in advance. This is so that we can manage and regulate the number of people at our facility at a given time.

How do I check-in?

Visit the campground office to check in. One person per reservation and all children will go to check-in and receive the wristbands and tickets for their group. All kids' heights will be verified at check-in.

How are the harnesses sanitized?

Every harness is disinfected between each use. The Clic-It smart belay system is also sanitized between each use.

What staff training have you done?

Our staff have been trained to perform contactless Ground Schools, assists and rescues in addition to industry best practices. Policies and procedures for staff have been implemented to mitigate the risk of the spread of respiratory infections.

Additionally, each employee will undergo a health assessment at the start of each shift to ensure the absence of COVID-19 symptoms.

How many people are you allowing?

We have limited each time slot to 10 participants, keeping the maximum possible overall number of participants to 80 on the tower at a time.

While we acknowledge that non-participating parents/guardians of children may need to be present, we kindly ask that non-participants and spectators refrain from entering the facility and grounds.

We also urge participants to not enter the facility until their designated check-in time and exit the facility directly following their climb. These measures are so that we may manage and regulate the number of people at our facility at a given time.

What other changes have you made?

We will not be operating our water fountain - you may purchase a bottle of water from the campground building or bring your own.

Although our washroom facilities are available, we strongly encourage you to use the washroom before you arrive.

We kindly ask that you do not enter our facility if you:

- are experiencing symptoms including cough, fever, shortness of breath, runny nose or sore throat that are not related to a pre-existing illness or health condition, or are otherwise required to isolate or quarantine
- have been in contact with anyone with COVID-19 or who has COVID-19 symptoms
- have been outside of Canada within the last 14 days

Snow Valley reserves the right to deny access to any guest they believe is not complying with the conditions listed, or who exhibits any visible COVID-19 symptoms.
