

Basic Guidelines For Riding The Lifts

There are common courtesies and basic guidelines for riding various surface and aerial lifts with which, for your safety and the safety of others, you should be familiar.

- Obey all posted instructions.
- Do not use a lift until you are familiar with its operation. Watch and learn or ask for assistance.
- Slow down before approaching the entrance to a lift.
- Load and unload only at designated area.
- Be polite and courteous at the loading area.
- Do not bounce or otherwise abuse lift equipment.
- Make sure no loose clothing is caught in lift before unloading.
- Move quickly away from unloading areas.
- If a lift stops, do not attempt to get off. Remember, if there is a mechanical problem, area personnel will provide assistance.
- When riding a lift with small children, help them load and unload. Do not allow them to ride a lift alone until they can do so properly. You are responsible for your children and their actions.
- Always respect other people and their equipment. Don't ski or ride over someone else's skis or board.
